TODAY'S MARKET REPORT.

Chicago. June 12—WHEAT—Reports that cutting of wheat in Kansas had begun with favorable weather lowered the market today notwithstanding that prices at first showed a bulge. The forecast was that good harvest condition might be expected until after Sunday at least. As a result the general buying movement which started yesterday soon came to a halt. After opening ½c to 1½c higher, quotations receded more than I cent below last night's level.

Rumors of new crop sales here today to the scaboard led afterward to a rally. There were also assertions that damage would result from heavy rains northwest. The close was strong at ½c to 1½c net advance.

The close was strong at %c to 1%c net advance.

CORN—Corn simply reflected the action of wheat. Price changes, though, were not so wide. The opening, which ranged from a shade to %g%c up, were followed by a moderate setback.

Iowa and Nebraska reports of a poor crop outlook tended later to harden the market. The close was strong at 1c to 1%c above last night.

OATS—Oats were comparatively heavy. September in particular. The market lacked the usual support from shorts.

PROVISIONS—Lower prices for hogs weakened provisions. On the decline, however, packers turned to the buying side.

New York Stock Market.

Wall St., New York, June 12.—STOCKS—Today's stock market was active and strong, but the rise was so largely restricted to specialities as to lack conviction. Issues comprising the Guggenheim group were the early features. Federal Mining, common and preferred, making maxium gains of 20 and 5 points respectively, from which they soon reacted. American Smelting and Guggenheim exploration also added to recent gains on reported sales of Copper at 20½ cents and lend at 7 cents. Other metal shares rose in varying degree. War issues, notably Bethlehem Steel and New York Airbrake advanced 2 to 5 points, later falling back. American Can, Central Leather became active and strong in the final hour. Speculative leaders were inclined to yield under pressure. The closing was irregular.

Bonds were steady.

Atcive trading in stocks at higher prices was resumed at the opening of today's short session, war issues again leading with gains of 1 to 3 points. Bethlehem Steel, which advanced to within a fraction of its record quotation, New York Air Brake and the Coppers were in especial demand, extending their advantage materially before the end of the first half hour. Investment shares in the Railway group also scored substantial advances. United States Steel on an opening sale of 1,500 shares, rose %.
